

MANAGEMENT COURSE OFFERING SCHEDULE

This schedule is an important planning tool for Management and Human Resource Management Majors to use during the early parts of their academic programs in order to establish overall course schedule plans. Academic advisors are available to provide assistance in planning an individualized program of study.

Management classes will be offered according to the following schedule as much as possible. Budgetary constraints and staffing circumstances may occasionally affect our course offerings. However, we will make every effort to make these courses available as shown.
